Try Our New Sound Table!!

Information

Have you searched around my website to find “sound therapy” services and asked yourself, what is sound therapy?

Well, there is a wide range of healing benefits with sound healing all around the world, over many centuries, if not millennia. From chanting to drumming to singing bowls to brainwave entrainment, where do you get started?

Specifically, our new sound table utilizes binaural beats to entrain your brain into following music into certain frequency ranges. These particular ranges are widely accepted in neuro-acoustic studies to help with relaxation from stress, optimizing learning, helping with sleep, and many more healing benefits. The more often your brain spends in these states, the more the healing benefits start to become routine.

The table is even more powerful though, as it synchronizes the binaural beats with the brain's vibration pathway to really get a full-body effect.

Would you like to try it out? We are offering complimentary 15-minute sessions throughout the afternoon and evening (1:00-7:00PM) on **Friday December 20**, so come out and try it!

Please sign up at www.risingphoenixnaturalhealth.com under the “Book Now” and schedule your “Sound Table Trial” or send an email to risingphoenixnaturalhealth@gmail.com for the December 20th event. I look forward to seeing you there!
