Memorial Day

In Honor of Our Fallen Heros

*They gave their tomorrows
so we could have our today.*

*They stepped forward in courage,
so we could walk in freedom.*

*We remember not just their sacrifice,
but the love of hometowns that will never forget.*

All gave some, some gave all.

Social Security: Your questions answered

Social Security will likely be the foundation of your retirement income. Before you retire, it's important to understand your options and the impact your decisions have on your retirement.

Join us for our presentation *Social Security: Your questions answered*. We'll discuss:

- How does Social Security fit into my retirement income plan?
- When should I start taking benefits?
- What about taxes?

The Wellness Note

Oh, those extra pounds . . .

It's tempting to blame a slowing metabolism.

But guess what?

Research shows our metabolism stays pretty steady from ages 20 to 60.

What *DOES* often decline as we age is our muscle mass & physical activity – and that matters A LOT.

FAST FACTS:

- Muscle burns more calories than fat.
- Muscle loss starts in our 30s and continues.
- Muscle mass greatly supports overall health.

HELP YOUR MUSCLES WORK FOR YOU:

- Lift weights & do resistance training.
- Eat 1g of protein per pound of ideal body weight.
- Sleep well: One poor night can derail metabolism and energy.
- Smart hydration & muscle recovery: what's in your water matters.

SUPER-CHARGE YOUR EFFORTS:

- Targeted supplements.
- Amplified growth, recovery, release, energy & rest.
- Faster results that last.

Are you ready to feel better?

Let's chat. Small changes can truly make a big difference.

You deserve to feel your BEST!

Let's chat!
